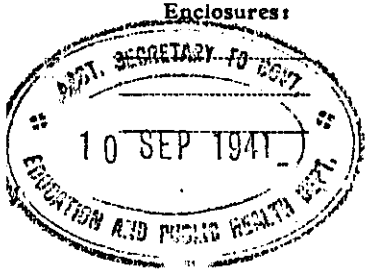
Enclosures:

No. Ry 36448-14 dated 9-9- 194 .



Sir,

Establishment - Lady Goshen Hospital, Mangalore - Employment of an additional toti.

---

old Bed strength 60
80 5 304 P4
11.11-40

The sanctioned bed strength of the Lady Goschen Hospital Mangalore, is 80. The daily average number of in-patients treated in the Hospital for the last 3 years and for the first 7 months in the current year is furnished below, which is far above the sanctioned bed strength.

	Daily average number of out-patients	in-patients.
1938	226.67	97.59
1939	226.31	103.76
1940	246.38	111.99
1941 for 7 months.	215.00	115.00

313.34 / 3 aw=104.45

The present staff of four female toties is found by practice inadequate to answer the needs of the several wards of the Hospital. There is no water carriage system of conservancy in the Hospital. For a daily average number of 115 in patients, 10 toties are permissible, as per sanctioned scale of one toti for every 12 beds. It would therefore be seen that the present number of 4 toties on the staff is far below the sanctioned scale. The Hospital Advisory Committee at its meeting held on 11-8-1941, has also observed that an additional toti of at least one more is quite essential.

Even with reference to sanctioned bed strength, the Hospital is eligible to employ 6 toties as against 4, now sanctioned for the Hospital. 5

In view of the heavy increase of attendance, it is requested that Government will be pleased to sanction the employment on Rs.10/- p.m. with the usual bonus of Rs.2 p.m. of one more female toti in the Hospital from 1st October 1941.

$\frac{60}{12} = 5$

The extra cost involved in the proposal during the current year is Rs.60/-.

Personal Assistant
for Surgeon-General with the Govt. of Madras.
